ACTION PLAN TO COMBAT TRAFFICKING IN CHILDREN IN THE REPUBLIC OF MACEDONIA
2009-2012

National Commission to combat Trafficking in Human Beings and Illegal Migration
Subgroup for combating Trafficking in Children
INTRODUCTION

The Action Plan to combat Trafficking in Children is a document which stems from the commitments of the Republic of Macedonia in the fight against trafficking in children, and which are obligations of the country as a member of the UN and party signatory of the Convention on the rights of the child, international documents on human rights, in particular the Optional Protocol on Selling Children, Child Prostitution and Child Pornography to the Convention on the Rights of the Child, the UN Convention on Transnational Organized Crime and the Protocol on prevention, suppression and punishment of trafficking in human beings, especially women and children and the World Plan on Action.

The goal of this Action Plan is the protection of the children in the Republic of Macedonia from trafficking and exploitation, and giving priority to the rights and interests of the children.

The Action Plan to combat Trafficking in Children is based on four basic principles including taken from the Convention on the Rights of the Child:

I. Protection of rights – including protection from discrimination against all forms of abuses, neglect and exploitation;

II. Right to survival and development – including the right to residence in shelters, by providing access to the health care institutions, educational institutions, protection of the rights from economical exploitation and protection of the physical, psychological and mental development of the children;

III. Participation of children in the decision making in regards with their rights and interests and their engagement in all matters related to their rights and interests – including the right to form and present their views and opinions and the right to obtain information accessible and comprehensive for them which contribute to their well-being, as well as their protection from negative influence of different information, materials and contents;

IV. The best interest of the child to be absolute priority in the creation of the government policies and in the decision making of every individual, institution or legislative body.

The Action Plan is based on the international experiences in the field and addresses all relevant elements: legislative framework, assessment of the situation, prevention, protection of victims, rehabilitation/reintegration/reintegration and coordination of all relevant actors.

1 The first Action Plan to combat Trafficking in Children was adopted from the National Commission to combat human trafficking and illegal migration as part of the National Action Plan and Strategy of the National Commission. This plan (2009 – 2012) is revised version of the first Action Plan.
The Action Plan has the objective to provide the Republic of Macedonia with the means and mechanisms for the implementation of the commitments to the fight against trafficking in children and to improve the coordination among all institutions and organizations active in the fight against trafficking in children.

The Action Plan oughts to provide mechanisms and good practices for overcoming the problems with trafficking in children, including protection of children victims of trafficking, the prevention of trafficking and exploitation of children and criminal prosecution of those who take part in trafficking or exploitation of children or assist in committing these acts.

The Action Plan to combat Trafficking in Children has the objective to:
- Improve the policy of the Republic of Macedonia in regards with the fight against trafficking in children and their exploitation;
- The legislative solutions and the governmental policy on fight against trafficking in children to be created based on relevant data gathered from researches and/or relevant databases;
- Undertake preventive measures for reducing the reasons and risks that lead to the trafficking in children and its increase;
- Set up minimum standards which will provide protection, assistance, rehabilitation and reintegration of children victims of trafficking.

The Action Plan to Combat Trafficking in Children unites all the tasks and objectives that the Republic of Macedonia ought to undertake in order to prevent trafficking in children and to protect children victims of trafficking, taking into consideration the principles of equality, accessibility, quality and efficiency.

For the purpose of achieving the main objectives of the Action Plan, the following guidelines and priorities have been determined:
- Full implementation of the Convention on the Rights of the Child, the Optional Protocol to the Convention on Selling of Children, Child Prostitution and Pornography and other international documents which define the mechanisms and obligations for protection of children from human trafficking and other forms of violence and abuse;
